

# EOP MANAGEMENT OFFICE

## TENANT IMPROVEMENT

### Summary

When it was time to relocate our friends at Equity Office Properties to new headquarters, CREW was retained to manage the process from beginning to end. Crew Builders worked with EOP and their management team to coordinate a timely move that would not interrupt their work production. Crew also helped with design team to resemble their previous office space with high-end finishes that were cost effective and did not exceed the set budget. This 6,894- square foot tenant improvement was completed within a 10-week schedule. The scope of this project included a complete demo of all interior walls, drywall, new HVAC, light fixtures, sprinkler rework, sealed concrete floors, new doors and hardware, and new breakroom.

Square Footage

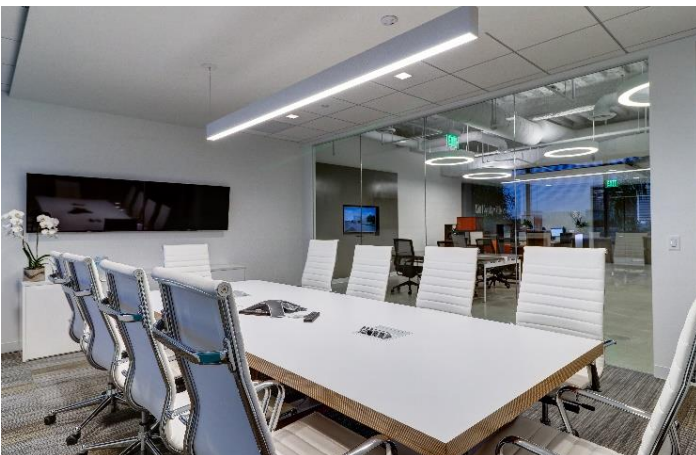

6,894 sf

Budget

\$336,817

Duration

10 Weeks
